Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent No. 2002-053468 or the European Patent No. 1208755.

Each of the Japanese Patent and the European Patent discloses compositions comprising the claimed anthocyan. Note that the claimed medicinal, food and cosmetic composition read on nothing more than an old compound, disclosed by the Japanese Patent and the European Patent, in a conventional carrier, such as water.

Claims 1-11 are rejected under 35 U.S.C. 102(a) as being anticipated by Smirnov et al (U.S. Patent No. 6,767,999).

Smirnov et disclose food, cosmetic and pharmaceutical compositions comprising anthocyan, such as glycoside of cyanidin (see ABSTRACT).
